

GCS Preventative Maintenance Program

Protect your investment and stay ahead of the field.

Receiver Basic Maintenance Package: Part Number RBMP-1

\$375.00 + tax and shipping (includes parts and labor)

Maintenance Items:

- MS990/992 Receiver (2)
- SNR9XX / 4XX Machine radio (1)

Includes one service of:

- Dismantle and inspect
- Replace seals/silicon grease/thread locker
- Reassemble to manufacturer's specifications and clean
- Seal and pressure test
- Check operation and upgrade firmware
- Provide a quote for any repairs required
- Any repair parts and all necessary labor will be quoted at 10% off list price and standard labor rates

NOTE: Receivers and radio must be sent to SITECH South at same time for maintenance service.

Receiver Premium Maintenance Package: Part Number RPMP-2

\$1,895.00 + tax and shipping (Per Receiver) (includes parts and labor)

Maintenance Item:

- MS990/992 Receiver (1)

For receivers that need a bit more TLC, we'll complete everything in the *Basic Maintenance Package* PLUS:

- Replace the input/output port
- Replace the lower housing
- Provide a quote for any repairs required
- Any repair parts and all necessary labor will be quoted at 10% off list price and standard labor rates

Corrosion of these receiver parts can cause seal damage and allow water and other materials into the receiver over time. A typical repair after water damage can cost as much as \$10,000. Talk to us about preventative maintenance for a fraction of the price of replacing the unit.

Before

Here's how it will look afterwards...
