1 Application Services

1.1 General Description. The Service is an application software -based service. The Service application software is designed to gather and process data and information (“*Data*”) that you may actively enter or otherwise import to the Service or that is automatically generated by and transferred from mobile devices (“*Devices*”) that you cause to be connected to the Service. After activation of a Service Subscription, the Service will be provided to you and your Authorized Users and the Data will be accessible to You and your Authorized Users (defined in Section 3) with content, functionality, reports and services, as may be changed from time to time. Service Subscriptions require activation. To have them activated you must (i) accept the payment terms and conditions applicable to your Service Subscription, (ii) accept these TOU, and (iii) consent

to the transmission and use of the Data generated from your Devices as further described in section 6.1 below.

The Service may be offered under a variety of Service Subscription plans (“*Service Plans*”) and, therefore, may be subject to additional terms and conditions either posted at our Trimble Store for the Site or contained in other ordering documentation.

The availability of the Service may be affected, inter alia, by planned and unplanned maintenance periods, technology upgrades and as otherwise set forth in these TOU or any description of the Service.

1.2 Third Party Communications Systems

Some features of the Service may require use of a third party communications system, such as that of Internet access, wireless or a satellite-based communication system (each, a “*Communications Service*”). UNLESS A COMMUNICATION SERVICE IS EXPLICITLY MADE PART OF A SERVICE PLAN, CUSTOMER SHALL PURCHASE THESE COMMUNICATION SERVICES. TRIMBLE HAS NO RESPONSIBILITY FOR THE AVAILABILITY, QUALITY OR PERFORMANCE OF WIRELESS OR SATELLITE-BASED COMMUNICATIONS SERVICES OR EQUIPMENT FURNISHED BY THE COMMUNICATION CARRIERS. THE COMMUNICATIONS CARRIERS ARE EXCLUSIVELY RESPONSIBLE FOR SUCH SERVICES AND EQUIPMENT.

1.3 Data Exchange and Third Party Interfaces

The Service may permit the communication, transfer and exchange of Data between the Service and certain third-party devices or systems. Trimble does not exercise control over the form or quality of data generated or transmitted by or to third-party manufactured assets, devices or other third-party developed solutions such as custom reports or interfaces (collectively, “*Third-Party Data*”). Therefore, if your Services Subscription permits use of the Service data exchange component you understand and agree to the following:

- Data may only be exchanged between the Service application and third-party manufactured assets, devices or systems approved for use with the Service by Trimble;
- Even though Trimble may have approved such use, Third Party Data may not be in a format that may be processed in the Service, and Data may not be in the format to be processed on the third party assets, devices, or systems, and usability or visualization of the data may be impaired.
- Trimble is not responsible for the quality or accuracy of, or the ability to receive, access or use Third-Party Data that may be reported into the Services or Data exported to or through third party manufactured devices or systems or other third party solutions (e.g., custom reports or interfaces), whether a deficiency is due to third-party caused service outages, third-party software interface incompatibilities or failures, or otherwise;
- Trimble may reasonably screen all Third Party Data transmitted to and from the Service for viruses and other threats and abuse, and may stop or block any Third Party Data that Trimble believes may adversely affect performance of the Service.

2 Nature of Application & Hosting

The Service is hosted by or on behalf of Trimble and includes access and use of the Service application software that is licensed under section 5 below, and third party software or services (to the extent permitted by the third party suppliers) (“*Third Party Software/Services*”). The Service also may interact with software, which may include firmware, programs or apps run on your Devices. Via the Site, we may make available software or data services of third party suppliers (“*Third Party Suppliers*”). You acknowledge that the Data and the Service may be transmitted through networks and signals that are not specifically protected or encrypted and where third party interception may be possible. You consent to such transmission and waive any claims that you may have against us with respect to such transmission. Subject to the specifics of the Services Subscription and the Service Plan you may make the Service available to Authorized Users on the basis of several factors including, without limitation, Web access, computer use, assets, operating system, Devices activated and maintained by you, username, password and/or other factors. For that purpose you may designate authorized users whom you authorize to access and use the Service (“*Authorized User*”), always provided that you have purchased a sufficient number of Services Subscriptions for the Authorized Users or Devices, as the case may be under the Service Subscription you have purchased, connecting to the Services. You agree that the access credential of one Authorized User can only be used by that Authorized User and you have to assure that the access credentials of one Authorized User only be used by this Authorized User and no other person. Point of delivery for the Service is the Site and, unless Service Plan explicitly entails connection to the Site, connecting to and accessing the Service through Devices and computers is within your sole responsibility, regardless of the nature of such connection. We are not responsible for the network connection or for issues, problems or conditions arising from or related to the network connection, including but not limited to bandwidth issues, network outages, firewalls and/or other conditions that are caused by the Web and/or network connection.

3.2 Limitations on Use Transmission of information using a Device may be subject to legal requirements that may vary from location to location, including radiofrequency use authorization. You must limit use of any Device to those locations where all legal requirements for the use of the Device and the Service communication network have been satisfied. In the event that a Device is used at a location where (i) legal requirements are not satisfied or (ii) transmitting or processing of such information across multiple locations would not be legal, we disclaim any and all liability related to such failure to comply and Trimble may discontinue the transmission of information from that Asset. **You also understand and acknowledge that the Service is not intended to be the sole method for notification or providing information about any emergency, mission critical, safety-related or other ultra-hazardous activities and you shall not use the Service in that manner.**

You agree to immediately notify Trimble of any unauthorized use of any Authorized User's username, password, or any other breach of security, and to ensure that Authorized Users logout at the end of each session. You are responsible for disabling the accounts of any Authorized User no longer employed by you or requesting that such accounts be disabled by Trimble. You acknowledge that Trimble is not responsible for tracking your Authorized User's use of the Service, and that Trimble cannot and will not be liable for any loss or damage arising from your failure to comply with this Section 4.

4.3 Payment You agree to pay all charges and fees in accordance with the payment terms applicable to the Service Subscriptions that you acquire. If data transmission is included in a Service Plan, such transmission may be subject to certain limits. You agree to reimburse Trimble for any charges for data transmission in excess of these limits as well as any activation and de-activation charges that may be imposed by the transmission service provider because of your conduct in accordance with the service provider's terms.

21 General Provisions

The TOU, the terms of your Service Subscription and/or any other valid agreement between you and Trimble for use of the Service, constitute the entire agreement between you and Trimble and govern your use of the Service and Site, superseding any and all prior agreements, negotiations and communications (whether written, oral or electronic) between you and Trimble with respect to the subject matter hereof. No change, modification, or waiver of the TOU, will be binding on Trimble unless made in writing, with Trimble’s approval. Any rights not otherwise expressly

granted under the TOU are reserved by Trimble and its licensors. The failure of Trimble to exercise or enforce any right or provision of the TOU shall not constitute a waiver of such right or provision. If any part of the TOU is held invalid or unenforceable, by a court of competent jurisdiction, that portion shall be construed in a manner consistent with applicable law to reflect, as nearly as possible, the original intentions of Trimble, and the remaining portions shall remain in full force and effect. You agree that regardless of any statute or law to the contrary, any claim or cause of action arising out of or related to use of the Service and/or your Service Subscription must be filed within one (1) year after such claim or cause of action arose or be forever barred.
